

**RIVERSIDE ENERGY RESOURCE CENTER
SMALL POWER PLANT EXEMPTION
RESPONSE TO CEC DATA REQUESTS
04-SPPE-01**

Technical Area: Energy Resources

BACKGROUND

As designated in the AFC, the applicant states that Sempra will supply natural gas to RERC (RERC 2004a, SPPE §§ 1.2.5, 2.6).

Data Request 42: Please provide documentation from Sempra confirming its ability and readiness to supply adequate quantities of natural gas to the RERC for the life of the project.

Response: The “will serve” letter is attached.

Attn: Robert Gill

Dear Bob,

Southern California Gas Company (SoCal) has submitted to your attention a Collectible Work Authorization for the Riverside Energy Resource Center.

As we had discussed SoCal intends to serve the project from transmission pipeline 2001.

The project includes tapping Line 2001 installing approximately 300 ft of 10 inch steel wrapped pipe. Additionally SoCal will design and build an unregulated meter set assembly to include the following: filters, valves, flow computer, check valve, flow conditioner, gas chromatograph, scada pk., UPS and electrical panel. The City of Riverside has agreed to provide AC power, lights and phone lines.

If you have any questions please contact me at your convenience.

Sincerely

Dan LaMar
Sr. Account Executive
